## We can help you reach the Mass Internet Audience

Web-Tech Online Magazines has a network of 12+ long-established Community Magazines on which you can advertise to tens of thousands of people monthly to build your brand.

Our affordable rates easily give you the reach and frequency needed for successful advertising using the “Mass Marketing” approach to build long-term awareness of you by targeting large numbers of consumers who may be at any stage in the buying process.

## We can help you reach “generic searchers”

Consumers ready to buy a product or service generally search for a generic term such as “dance studio ma”, “internet radio ma” or “restaurant gardner ma”. We can help your website show up well in generic searches as we have for current successful clients.

## We can help you reach your customers

When customers enter the name of your business into a search engine box, they expect to find you. We can help your website show up well in these types of searches.

## SUMMARY

We can help you be found when: (1) customers are looking for your business specifically, (2) customers are looking for your type of business, or (3) customers are browsing our local media and can be influenced by advertising.

## FREE CONSULTATION

Our initial consultation is free and could save you hundreds of dollars. With 30+ years of media experience, we can help steer you in the right direction, whatever your needs may be.
